Jardim II – Manhã 2023

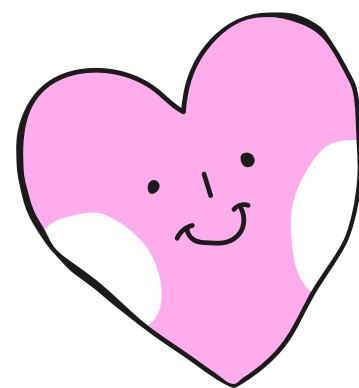

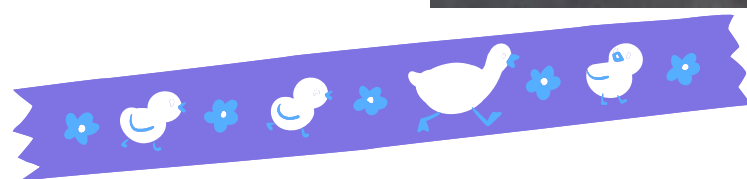

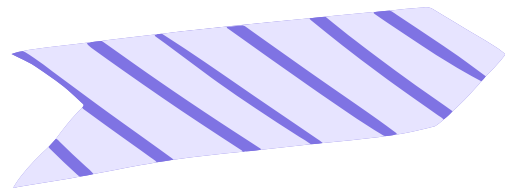

É brincando que a criança reinventa o seu mundo, aprende a socialização e o compartilhamento. As possibilidades são tantas! Um cabo de vassoura vira um cavalo, uma panela vira um capacete e não há nada que freie a imaginação. Por isso, separamos momentos de atividades e brincadeiras que nos proporcionaram momentos únicos aqui no Jardim II.

“VAMOS nos divertir hoje.”

# Pião com bolinha de gude

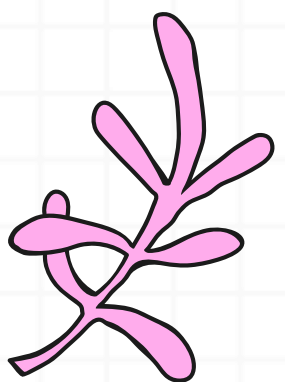

Brinquedos e brincadeiras

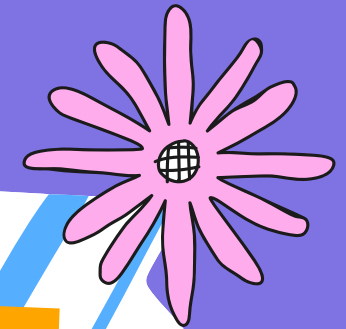

# Piãõ diferente

Em uma sessão de projeto onde as crianças foram convidadas a confeccionar um pião, com os seguintes materiais cd, bolinha de gude e papel picados, a Imaginação e criação rolavam soltas neste projeto permitindo as crianças a explorar um novo brinquedo confeccionado por eles mesmos.

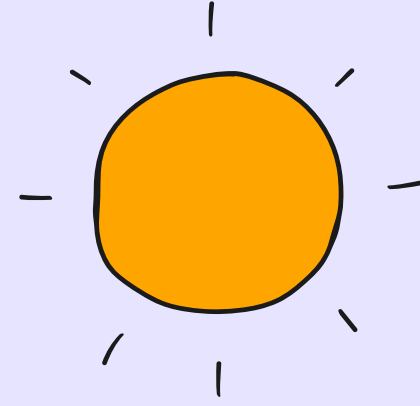

# Pipa

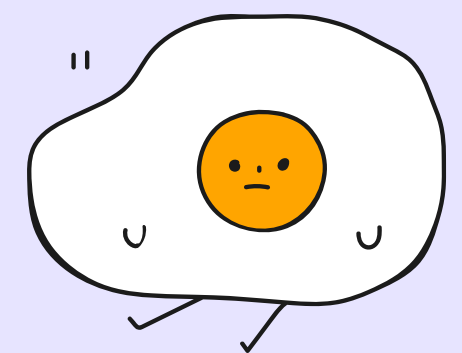

Brinquedos e brincadeiras

# Pipa

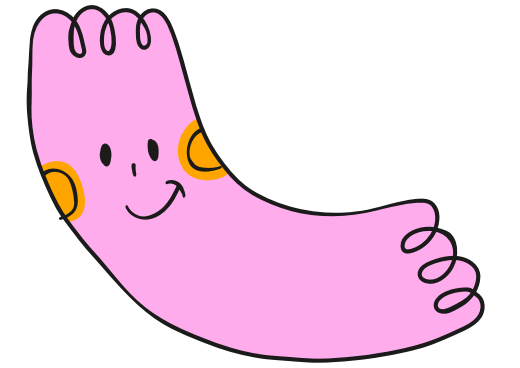

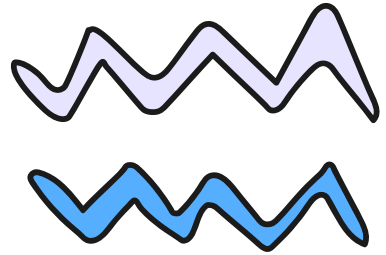

A atividade começou com uma breve introdução sobre a história e a diversidade de pipas ao redor do mundo. As crianças foram estimuladas a compartilhar suas experiências e conhecimentos prévios sobre pipas, criando uma atmosfera de curiosidade. Com o ateliê montado foram apresentados os materiais que utilizaríamos para a confecção da pipa em grupo, utilizamos então papéis coloridos, palito de churrasco, linha e sacola plástica para a rabiola.

Crianças, que esta seja uma etapa de sorrisos soltos, de uma educação que desperta o encantamento e o olhar, que prove que tudo que acreditamos vale a pena.

Pois, a melhor coisa da vida não são coisas. São pessoas, lembranças e momentos. E certamente no Jardim II vivemos momentos incríveis que levaremos para sempre em nossas memórias e em nosso coração.

Hoje finalizamos um ciclo na vida de vocês, que partirão em busca de novos conhecimentos e experiências.

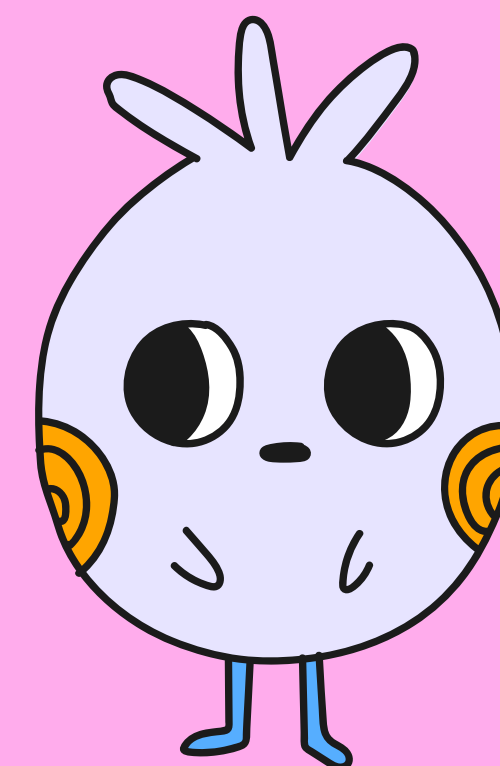

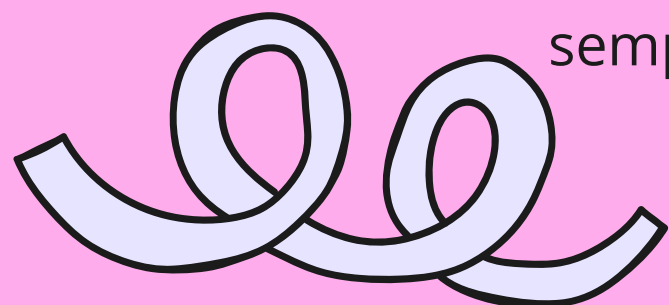

Desejo a esta turma sonhos, vivências, inteirezas, esperança e afeto. Que possam crescer no seu tempo, que tenham sua história respeitada, que possam viver com potência seu cotidiano, desenvolver-se na sua totalidade.

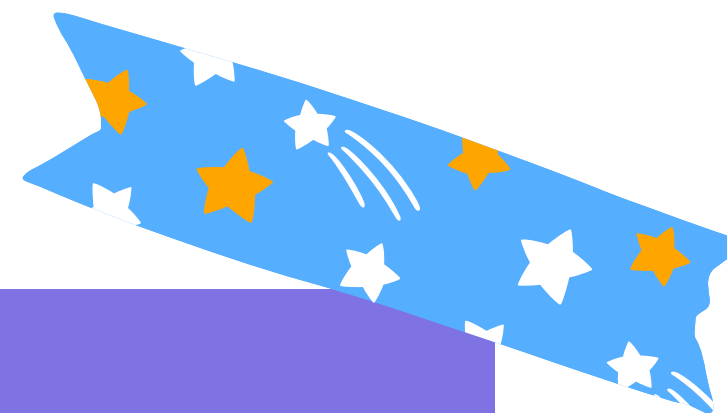

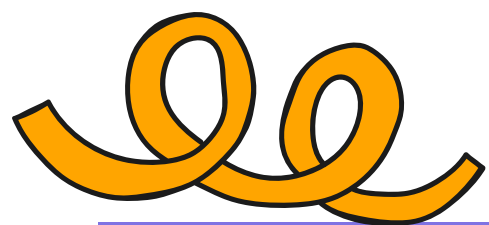

E nunca deixar de acreditar na boniteza da vida.

O mundo é de vocês.

Sejam felizes, sejam crianças, brinquem, sonhem, se sujem, sorriam, imaginem e busquem sempre novas descobertas neste mundo cheio de grandes possibilidades e nunca, nunca deixem a criança que existe dentro de vocês se perder.

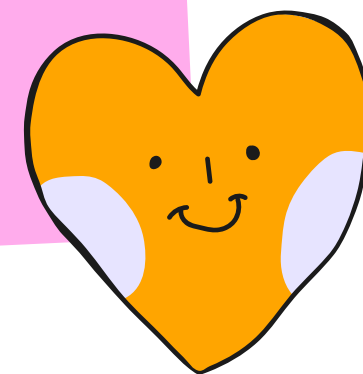

Com amor e carinho Prô Jéssica

Os educadores, antes de serem especialistas em ferramentas do saber, deveriam ser especialistas em amor: intérpretes de sonhos.
